

About two or three months later, a new family moved into a house across the street. A few days later, I saw the wife outside her house. We started talking and I asked her why she did not have a spirit house. She said that they were Christian and that Jesus Christ protected them from all evil.

Her statement struck me in the heart. That is exactly what I was looking for in my life, a way to be protected from all evil. I told her that I did not understand how Jesus Christ could protect her from evil; after all, He was just a good man. She said that Jesus Christ is God who created all things including the spirits and that they are all subject unto Him.

I always thought that there was some unseen power or holy person with all power, but never considered it to be God. I told her that I remembered my mother used to sit in front of a lighted candle and pray to a “great spirit” she called “The Holy Thing in the

Universe.” She told me that Jesus Christ is “The Holy Thing in the Universe.”

I had many questions. She introduced me to the Christians’ Bible and told me that I would find my answers in this book. I was surprised to learn that the Bible was written by Asians. I wondered if maybe this book had answers for me.

I began learning what the message of the Bible was all about. I was amazed to find that the Bible had answers to my questions and solutions to my problems. It even had the solution to my greatest problem, “How to be protected from all evil.” I followed that path and today, I know that I am protected from demons and black magic.

I found my answers in the Bible. Maybe you wonder if this book has the answers you need. If so, I recommend to you a FREE Bible study available from MITTAM

Foundation. Upon completion of the course, you will be mailed a certificate of completion from America.

I was scared of the demons  
and feared she would use  
black magic against me.

I was scared. I felt trapped. I could not tell anyone, even my husband, that I was scared of demons and did not trust them. To make matters worse, a woman, who likes to use black magic against other people, was mad at me. I was fearful that she might use witchcraft against me. Oh, how I wished I could find a way to always be protected from evil!
